ASK YOUR CANDIDATE LE & EU ELECTION 2024

SEX WORKERS ALLIANCE IRELAND

- 1 What do you think about our sex work laws? How do you intend to improve the lives of sex workers in Ireland?
- 2 Are you aware that when sex workers work together for safety that is illegal under the law?
- 3 Are you aware that almost all of the people who have been prosecuted under our brothel-keeping laws are young, migrant women? Not traffickers, not pimps but the very people that our laws are supposed to "rescue". Did you realise that many more sex workers have been arrested than their clients, due to brothel-keeping laws?
- 4 A sex worker was murdered in Limerick last year. Are you aware that since the laws changed in 2017 there has been a 92% increase in violent crime against sex workers? Less than 1% of sex

- workers report crimes against them to Gardaí.
- 5 During the pandemic, we got a taste of what End Demand looks like. Most sex workers in Ireland were unable to access government supports and over half were unable to give up sex work. Did our sex work laws help sex workers during this frightening time?
- 6 Do you support the rights of sex workers, beyond them exiting sex work? What do you think sex workers would need to leave sex work or not to engage in the first place?
- 7 Are you aware that there is a review of the law currently underway? Do you support the Dept of Justice finishing this review internally, jeopardising the whole exercise? Would you be willing to speak to Helen McEntee about this review?

POLITICIANS WILL TRY AND AVOID ANSWERS TO HARD QUESTIONS SO YOU CAN USE THIS OPPORTUNITY TO INFORM THEM

- The law targets young migrant women, not pimps or traffickers.
- Our laws criminalise two or more sex workers working together from the same place, despite the fact would be safer for them to work together. Two sex workers were given a jail sentence in 2019 for the crime of working together for safety, one of whom was
- pregnant.
- Criminals are targeting sex worker precisely because they are forced to work alone or risk breaking the law.
- Where any aspect of sex work is criminalised, including client criminalisation it has adverse health outcomes for the workers.
- Sex workers are extremely unlikely to report an attack because of stigma

- and huge mistrust of the Gardaí. This has only gotten worse since the introduction of client criminalisation.
- Client criminalisation makes it much more difficult to find trafficking victims.
- If we truly want to reduce or eliminate sex trafficking we must understand how immigration policies lead to

- trafficking.
- People enter sex work for a variety of reasons, often because they have no choice. Austerity, visa status, precarious work and housing, lack of childcare, drug-use, debt, paying their way through school, living with a disability and lack of decent employment are all factors.
